

LIGHTWEIGHT CARBON FIBER TACTICAL LADDER ACCESSORIES

MILITARY • POLICE • S.W.A.T.

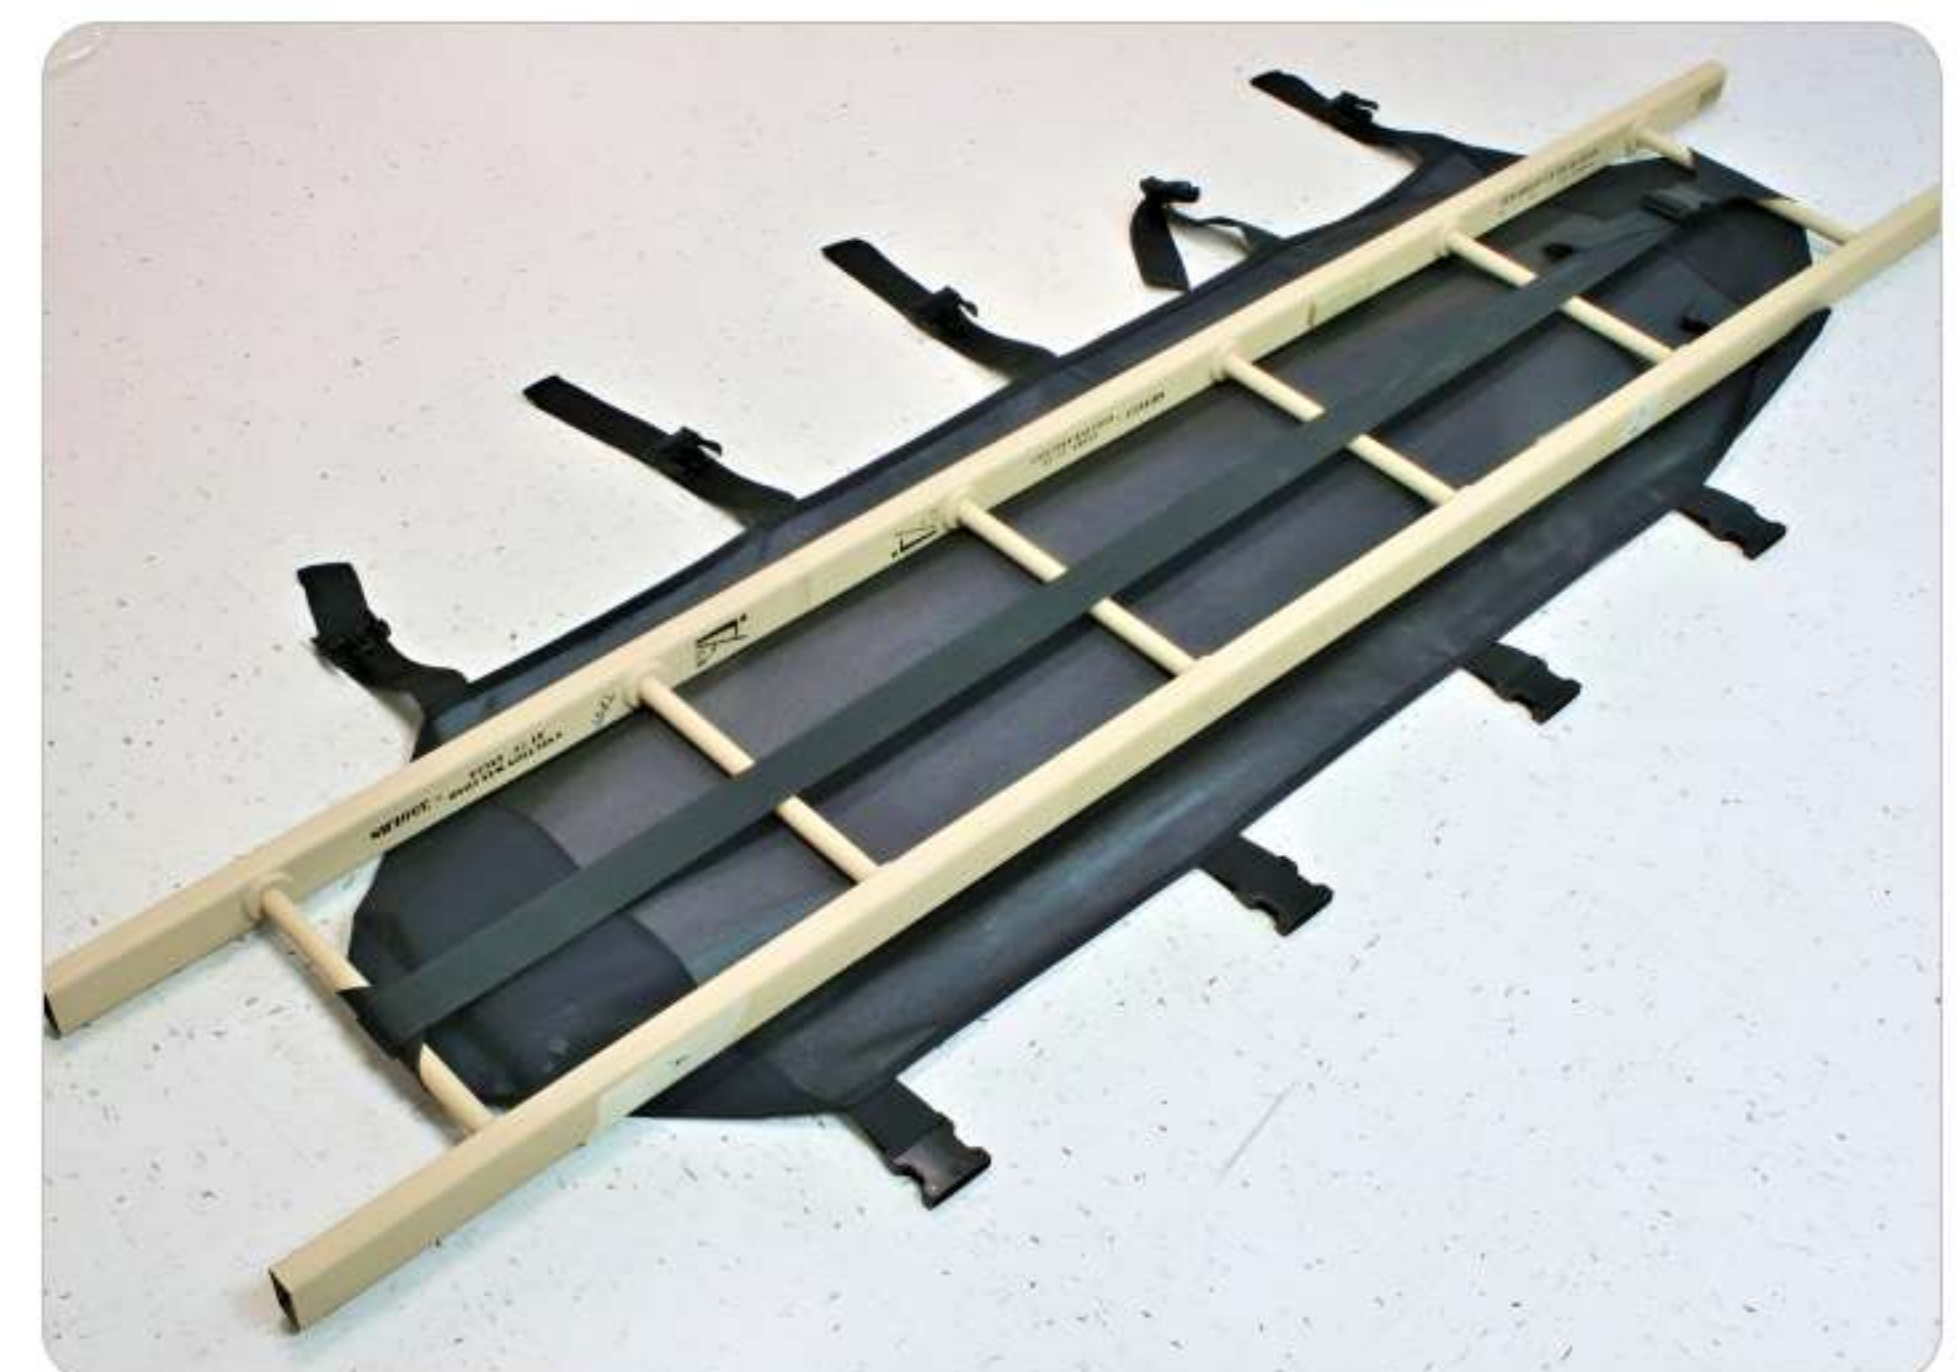

LADDER BACKPACK

Allows for easy transport for ladder. Individual pockets for each ladder section for quiet transport, removal and assembly.

LITTER COVER

Durable cover turns any 8" or 12" wide ladder into a litter. Attaches easily to ladder with quick connect buckles. Includes top straps to securely restrain the subject during transport.

BUS ASSAULT PLATFORM

The bus assault platform converts a single ladder segment into a stable non-skid platform for tubular assaults and first floor porting operations.

LADDER SECTION END CAPS

These specialized end caps are designed for carbon fiber tactical ladders, offering a critical combination of protection and grip.

SWIVEL LADDER FEET

Optional swivel feet are available for any of the ladder sizes for improved grip, particularly on soft ground. Supplied with one dedicated ladder section designed to accept the pinned joint.

EXTENDABLE POLES

These Lightweight Carbon Fiber Extendable Tactical Poles are engineered for superior performance and minimal burden during demanding operations.
